

Done-For-You AI Cartoon Prompts Vault

One-Time Offer | Copy-Paste Ready | Beginner Friendly

INTRODUCTION

Welcome to the **AI Cartoon Prompts Vault**.

This upgrade is designed to remove the most confusing and time-consuming part of cartoon video creation:

Writing prompts

With this product, you do NOT need to:

- Write scripts
- Learn prompt engineering
- Guess what instructions work

You simply:

Copy – Paste – Generate

Everything inside is:

- 100% beginner friendly
- Fully reusable
- Copyright-safe
- Optimized for cartoon video creation

MODULE 1

IMAGE → 3D CARTOON PROMPTS

How to Use

1. Upload your image
2. Copy ONE prompt
3. Paste it into your AI tool
4. Generate your cartoon image

◆ Prompt 1: Universal 3D Cartoon Style

Convert this image into a high-quality 3D cartoon style. Keep the same facial expression, pose, and background. Use smooth textures, clean edges, cinematic lighting, and realistic cartoon proportions. Wide-frame output.

◆ Prompt 2: Comedy Cartoon Style

Turn this image into a fun 3D cartoon character. Slightly exaggerate facial expressions for comedy. Bright colors, soft lighting, smooth textures, Pixar-style cartoon look, wide frame.

.

◆ **Prompt 3: Emotional Cartoon Style**

Convert this image into a realistic 3D cartoon. Preserve emotional expression clearly. Soft cinematic lighting, smooth textures, natural shadows, wide cartoon frame.

.

◆ **Prompt 4: Social Message Cartoon Style**

Create a clean 3D cartoon version of this image. Serious but friendly expression. Balanced lighting, smooth textures, wide cinematic frame suitable for storytelling.

.

◆ **Prompt 5: Kid-Friendly Cartoon Style**

Transform this image into a colorful 3D cartoon style. Soft shapes, friendly facial features, bright lighting, smooth textures, cheerful appearance, wide frame suitable for kids content.

.

◆ **Prompt 6: Fix or Improve Cartoon Output**

Improve this cartoon image. Fix facial proportions, clean the face, sharpen eyes, balance lighting, smooth textures, and keep the original expression.

.

IMAGE → VIDEO ANIMATION PROMPTS

How to Use

- Upload your cartoon image
- Paste ONE video prompt
- Generate the animated clip

.

◆ Video Prompt 1: Talking Scene

Animate this cartoon character with subtle body movement. The character speaks naturally with clear facial expressions. Smooth motion, cinematic cartoon style, wide frame.

.

◆ Video Prompt 2: Comedy Reaction

Create a short animated scene with a funny reaction. Playful facial expressions, light movement, smooth animation, bright cartoon environment.

.

◆ Video Prompt 3: Emotional Scene

Animate this cartoon character slowly. Soft facial expressions showing emotion. Gentle camera movement, cinematic lighting, clean cartoon style.

.

◆ Video Prompt 4: Social Awareness Scene

Create a storytelling-style cartoon animation. Natural gestures, serious but friendly tone, smooth motion, clear expressions, wide cinematic frame.

.

◆ Video Prompt 5: Silent Reaction Shot

Create a silent cartoon animation. Only facial expressions and small head movements. Smooth animation, clean background, cinematic cartoon look.

.

◆ Video Prompt 6: Calm Scene

Animate this cartoon character calmly. Very subtle motion, relaxed expressions, soft lighting, cinematic cartoon style.

.

📖 MODULE 3

PROMPT CUSTOMIZATION GUIDE

How to Create Unlimited Variations

You can reuse the same prompts by changing:

- Emotion (happy, angry, confused, surprised)
- Mood (funny, serious, emotional)
- Speed (slow, normal, fast)

This allows you to create unlimited cartoon videos using the same base prompts.

.

Consistency Rules (Important)

- Use the same prompt structure for all scenes
- Keep lighting and style terms consistent
- Avoid adding too many instructions

This ensures your characters remain consistent across scenes.

.

This Prompts Vault gives you:

- Image to cartoon prompts
- Image to video animation prompts
- Unlimited reuse system
- Zero script dependency
- Copyright-safe workflow

You can now focus only on **creating videos**, not writing prompts.
